ABOUT ME

I am an ICT undergraduate at the Faculty of Technology, University of Sri Jayewardenepura, with a strong interest in web development. I am passionate about building modern and responsive web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). I enjoy learning new technologies and continuously improving my skills to create efficient and user-friendly digital solutions.

PROJECTS

- | | |
|---|------------|
| Casual Club e-commerce web app | MERN STACK |
| <ul style="list-style-type: none">• A full-stack e-commerce web application developed using the MERN stack. The system includes secure user authentication with JWT, user registration, login, and password reset features.• Users can browse products, add them to the cart, and make purchases.• The admin can manage products (add, update, delete), view and manage orders with status updates, and monitor users with options to block or unblock accounts.. | |
| IntelliPrep web app | MERN STACK |
| <ul style="list-style-type: none">• An AI-powered web application built using the MERN stack to help users prepare for interviews effectively.• The platform provides intelligent question generation, answer evaluation, and personalized feedback using AI integration.• It offers a modern, user-friendly interface designed to enhance learning and interview readiness. | |
| MERN Auth web app | MERN STACK |
| <ul style="list-style-type: none">• A secure authentication system built with the MERN stack, featuring user registration, login, and JWT-based authentication.• It includes password hashing, token verification, and password reset functionality to ensure data privacy and security. | |

CERTIFICATIONS

- | | |
|--|------|
| SKYREK Institute MERN Stack Web Application Development Course | 2025 |
| Center for Open and Distance Learning (CODL) University of Moratuwa Srilanka - Web Design for Beginners | 2025 |
